

## *Invitation*

### **Quality Tracking Workshop at EUROFER Offices, Brussels**

EUROFER is organising a workshop on the quality tracking system:

**September 14<sup>th</sup>, 2016, 10h - 16h:** Workshop for steel producers, car makers, steel processors, part manufacturers, service centres and blanking line builders.

Participation is free of charge for ordinary members of the quality tracking project and 500 €/person for non members.

The Quality Tracking Workshop aims to provide its participants a complete understanding of the project from different angles: the EUROFER governance, the general/technical principles of the system, the stakes, the applications, the hardware/software, its integration to blanking lines and the status of European standardisation.

The live demonstrations of the system are assured by Octum and Plexant, the suppliers of the customer reading systems and the information servers.

Meeting area at EUROFER offices, Brussels
